This launch meeting is kindly being hosted by

Introduction to PACE

OTM Consulting Ltd and ExxonMobil have pleasure in inviting you to become to attend the launch meeting of the Plugging & Abandonment Collaborative Environment (PACE). PACE aims to promote collaboration on plugging & abandonment within the oil and gas industry in order to:

- Collaborate on cost effective solutions to common technical challenges.
- Understand capabilities of current and emerging technology
- Increase awareness of the global regulations
- Share knowledge and experiences to improve operational best practice

OTM recently canvassed our industry contacts to ensure that there was sufficient need for a new forum for collaborative working in plugging & abandonment to bring together the global community to overcome significant industry challenges. The response was overwhelmingly positive, with clear support for launching the forum in September 2016.

OTM propose a format that enables members to get maximum value from the forum, while making it cost effective and recognising the desire of interested parties to remain lean and minimise unnecessary expenditure. The meetings will initially be one day in duration and will consist of knowledge sharing presentations and facilitated discussions. The facilitated discussions will include subjects such as case studies, lessons learnt, technology needs, technical standards etc.

This launch meeting is intended to provide potential members with a taste of how the PACE network will run. Membership of PACE is open to any entity having an interest in plugging & abandonment. This will include: operators, contractors, suppliers, research & technology development (RTD) & academic organisations, consultants and independent technology experts. Such a wide membership provides value for Members through interaction between the different parties.

Please contact OTM Consulting on the details above if you are interested in becoming a Member of the PACE Network, or attending the launch meeting as a guest.

Launch Meeting Agenda

Tuesday 20 th September 2016			
Arrival of Operators with Tea & Coffee			08.00
1	Introduction to meeting/ H&S	Debbie McIntosh, OTM	08.30
